

The Talent Behind *Tomorrow.*

The specialist recruitment firm for climatech, advanced materials, and Industry 4.0.

PRE-SEED THROUGH SERIES C · UNITED STATES AND CANADA

WHO WE ARE

Powered. Sourced. *Produced.*

Three verticals. *One thesis.*

VoltForce is the specialist recruitment firm for the companies reshaping how the physical world is powered, sourced, and produced. Built on a single thesis: the talent moving across these three sectors is the talent we know best.

POWERED

Climatech

- Batteries & Energy Storage
- EVs & Charging Infrastructure
- Grid & Power Electronics
- Hydrogen & Clean Fuels

SOURCED

Materials

- Critical Minerals & Rare Earths
- Hydrometallurgy & Refining
- Advanced Alloys & Composites
- Semiconductors & Specialty Chemicals

PRODUCED

Industry 4.0

- Robotics & Automation
- Additive Manufacturing
- Factory Software & Digital Thread
- Reshored Production

PRE-SEED THROUGH SERIES C · UNITED STATES AND CANADA

WHY VOLTFORCE

Four reasons *clients stay*.

01

Vertical Specialization

Three adjacent industries, deeply understood. We don't take side mandates outside these verticals.

- No generalist coverage. No diluted attention.
- Every search compounds our sector intelligence.
- It is the entire firm.

02

Specialist Recruiters

Every search is led by a recruiter who has spent their career inside our verticals.

- Real expertise, real relationships.
- Relationships built over years in the sector.
- Embedded in flagship industry events and publications.

03

Stage-Aware Recruiting

Pre-seed needs first technical hires. Series A through C needs senior leaders. We engage differently at each stage.

- Stage-specific search calibration.
- Engagement model fit to each stage.
- Never confuses early-stage builds with growth-stage org-design.

04

Filament Platform (Beta)

Our all-in-one recruitment platform. Sourcing, outreach, applicant tracking, careers page, and client portal in one system.

- Your platform, your recruiter, one system.
- Sector-tuned skill taxonomy and matching.
- Also available standalone, as a subscription.

HOW WE ENGAGE

Three ways to work *with VoltForce.*

Filament powers every engagement, and it is available on its own. The structure flexes to fit your hiring window.

INCLUDES FILAMENT · PLATFORM AND RECRUITER

TALENT PARTNER

Embedded & Fractional.

Fractional embedded recruiting for teams in a ramp. The lowest cost per hire of any model, built for periods of volume. Six-month minimum. Your platform and your specialist in one engagement.

- Candidate pipeline + portal access
- Client-branded careers page
- Sector-tuned AI matching
- Predictable monthly engagement

RETAINED

Strategic & Committed

Strategic, mutually committed engagement for mission-critical hires. Single or multi-role.

- 20% of base, less the \$7,500 retainer
- Deeper market mapping & strategic insight
- Embedded pipeline access through Filament
- Single or multi-role engagements

CONTINGENT

Per-Role Placement

Standard placement engagement for individual hires. Starts at 25% of base salary, invoiced on placement, backed by our replacement guarantee.

FOUNDER

Matt Anders, *Founder.*

FOUNDER & PRINCIPAL RECRUITER

Matt founded VoltForce to build a specialist recruitment firm and recruitment firm for the operators driving climatech, advanced materials, and Industry 4.0. Over a decade in technical recruitment across energy, battery, and advanced manufacturing sectors.
